

## Limb Trimming & Mistletoe Removal:

### Tools:

- Chain Saws
  - Other types of saws
  - Fuel
  - Ladders
  - Safety Equipment:
    - Hard Hats
    - Eye Protection
    - Ear Protection
    - Limb Protection (yours, not the trees'...)
  - Monkey-like reflexes & abilities
  - Health Insurance
1. Cut down limbs & otherwise make safer the trees to protect the following, in the following order:
    - a. Humans
    - b. Equines
    - c. Bovines
    - d. Random Land Mass & Acreage
  2. Cut downed limbs into firewood-size logs, or branches/materials to take to the burn pile
  3. Stack the firewood for convenient pick up at a later date; or take what is not useable out to the burn pile
  4. While you are up there, remove the mistletoe from the oak trees
    - a. Good luck. May the Force be with you...

**P.S. Mistletoe is poisonous to humans. Not kidding. Seriously.**
